High performance
with a wide range of
solutions and options.

Product description

The hygienic design of checkweigher CWFmaxx with an open and easy to clean frame made of high quality s/s makes hygiene easy and ensures quality of your products. Soiling doesn't stand a chance since nothing sticks to the smooth surfaces. There are no dirt trapping corners. All components are easily accessible and visible for daily cleaning. CWFmaxx comes standard with three belts. Belt width, belt length, load range and rejection system can be individually configured to your requirements. These systems are perfectly suitable for the control of additional belts, drives and rejection devices. In combination with an integrated metal detector this checkweigher ensures your quality standard. Products containing undesired foreign metal objects are safely rejected.
